**Perihal : Penyelenggaraan Virtual Seminar Internasional AAMAI : “MANAGING ENVIRONMENTAL, SOCIAL AND GOVERNANCE RISKS IN INSURANCE BUSINESS” 22 Maret 2022**

Asosiasi Ahli Manajemen Asuransi Indonesia (AAMAI) bekerjasama dengan Universitas Gunadarma akan menyelenggarakan Seminar Internasional dengan tema “**MANAGING ENVIRONMENTAL, SOCIAL AND GOVERNANCE RISKS IN INSURANCE BUSINESS**” yang akan dilaksanakan dalam bentuk VIRTUAL SEMINAR, pada :

Hari, tanggal : Selasa, 22 Maret 2022  
Waktu : 13.00 – 17.00 WIB  
Biaya pendaftaran : Rp. 1.500.000 ,-/anggota AAMAI  
Rp. 1.750.000,-/non anggota AAMAI  
Link Pendaftaran : <http://bit.ly/ESG-AAMAI>

Secara umum, tujuan yang ingin dicapai dalam seminar ini adalah menyebarkan informasi dan mendiskusikan berbagai aspek yang terkait dengan pengelolaan risiko lingkungan, sosial dan tata kelola dalam bisnis asuransi dan regulasi terkait serta hasil-hasil penelitian terkini. Secara khusus juga tujuan yang ingin dicapai dalam seminar ini adalah agar para eksekutif memahami pentingnya :

1. Menyebarluaskan informasi terkait penerapan pengelolaan risiko lingkungan, sosial, dan tata kelola pada bisnis asuransi di industri jasa keuangan.
2. Menyebarluaskan informasi terkait pengaturan pengelolaan risiko lingkungan, sosial, dan tata kelola dalam usaha perasuransian di sektor jasa keuangan dalam rangka memberikan manfaat bagi kepentingan masyarakat dan pengelolaan pengelolaan risiko lingkungan, sosial, dan tata kelola dalam usaha perasuransian oleh industri secara bertanggung jawab , aman, mengutamakan perlindungan konsumen dan memiliki risiko yang terkelola dengan baik.

Dalam virtual seminar ini, seluruh rangkaian acara diskusi para pembicara, panelis dan moderator akan dilakukan di studio dan disiarkan langsung (*live streaming*) secara terbatas kepada semua peserta yang telah mendaftar melalui platform virtual seminar yang dibuat

khusus untuk acara ini dan tidak untuk konsumsi publik serta tidak akan disiarkan di media sosial apa pun.

AAMAI akan memberikan pengakuan/akreditasi dengan memberikan kredit 40 poin Satuan Kredit Profesi (SKP) Program Pengembangan Profesional Berkelanjutan (Program P2B) untuk pemegang gelar/Sertifikasi Kompetensi Manajemen Risiko Perusahaan Perasuransian dan Ajun/Ahli Asuransi kepada peserta seminar, sehingga dapat dipergunakan dalam syarat keberlanjutan bagi Dewan Direksi, Dewan Komisaris, Dewan Pengawas Syariah dan Tenaga Ahli dalam pemenuhan Syarat Berkelanjutan sesuai POJK No. 04/POJK.05/2013 tentang Penilaian Kemampuan dan Kepatutan bagi Pihak Utama pada Perusahaan Asuransi

Demikian kami sampaikan, atas perhatian dan dukungannya kami ucapkan banyak terima kasih.

Hormat kami,  
**ASOSIASI AHLI MANAJEMEN ASURANSI INDONESIA**

## **BACKGROUND**

To realize a national economy stable grows, inclusive, and sustainable manner with the ultimate goal of providing economic and social prosperity to all people, as well as protecting and managing the Environment wisely in Indonesia, the economic development process must prioritize the alignment of economic, social, and environmental aspects.

Sustainable development goals include ensuring the integrity of the Environment as well as the safety, ability, welfare, and quality of life of current and future generations.

As a developing country, Indonesia has a social inequality issue that is a source of risk, which should get adequate attention. In addition, Indonesia is also a country that is geographically exposed to climate change risk. Therefore, better management and prevention of social and environmental risks is needed.

The application of sustainable finance principles is also a tangible form of Indonesia's commitment to the international community by providing a source of funding for climate change mitigation and adaptation.

The objectives of sustainable finance are:

- a. provide the funding resources needed to achieve sustainable development goals and adequate amounts of climate change-related funding;
- b. improve the durability and competitiveness of LJK, Issuers, and Public Companies through better management of social and Environmental risks by developing financial products and/or services that apply the principles of Sustainable Finance so as to contribute positively to the stability of the financial system;
- c. reduce social inequalities, reduce and prevent environmental damage, maintain biodiversity, and promote the efficiency of energy and natural resource utilization; and
- d. develop financial products and/or services that apply the principles of Sustainable Finance.

In order to support the Government's commitment in the Paris Agreement and achieve the Sustainable Development Goals (SDGs), the Financial Services Authority (OJK) has created the Sustainable Finance Roadmap Phase I (2015-2019) and Phase II (2021-2025).

One form of implementation of roadmap phase I is that OJK has required financial services institutions to draw up a Sustainable Financial Action Plan (RAKB) and submit a Sustainability Report for financial services institutions, issuers and public companies.

OJK has also issued several provisions to support the implementation of sustainable finance, including POJK Number 51 of 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions (LJK), Issuers and Public Companies, and POJK

Number 60 of 2017 concerning the Issuance and Requirements of Environmentally Sound Debt Securities (Green Bond).

OJK established 4 (four) strategic steps to implement sustainable financial principles that are effective in addressing climate-related issues.

First, the completion of green taxonomy, as a guideline in the development of innovative products and/or sustainable finance and sustainable financial disclosure. This initiative is also in line with the development of regulations regarding the reporting of the financial services industry to OJK.

Second, develop a risk management framework for the financial services industry and risk-based supervisory guidelines for supervisors in order to implement climate-related financial risks.

Third, develop an innovative and feasible project financing or funding scheme.

Fourth, increase awareness and capacity building for all stakeholders.

OJK has previously established a Sustainable Finance Task Force in the Financial Services Sector in an effort to realize the development of a sustainable financial ecosystem. The move is also a form of support for OJK's commitment to climate change mitigation and adaptation efforts (Paris Agreement commitment) as outlined in the Nationally Determined Contribution (NDC).

In virtual remarks at the 2022 Financial Services Industry Annual Meeting (PTIJK), President Joko Widodo encouraged the financial services sector to continue to synergize with the real sector to encourage the national economy which is in recovery momentum.

The president also stressed the importance of policies to develop new economic resources to create added value for the national economy, among others, related to the environment.

On that occasion, the President launched the Indonesian Green Taxonomy initiated by OJK as a form of support for the Government which became the G20 Presidency this year as well as evidence of OJK's commitment to the development of the green economy as a new economic sector.

Indonesia's Green Taxonomy, co-authored by eight ministries, lists the classification of economic activities that support environmental protection and climate change mitigation and adaptation efforts.
